REMARKS

The current patent application has been reviewed in light of the non-final Office Actions, dated February 22, 2007 and May 4, 2007, (hereinafter "the office action"). In the office action, claims 5, 11, and 12 are indicated to be allowable. Claim 11 is objected to because line 7 should read "a reflection mirror set" instead of "a reflection lens set." Entry and consideration of the above amendments and the following remarks is respectfully requested.

Claims 13-20 have been added. Support for the new claims is found, among other places, in FIG. 3.

Claims 5 and 11 have been amended. The amendments to the claims are made without prejudice or disclaimer, and Assignee believes that the claim amendments do not constitute narrowing amendments. Accordingly, Assignee does not intend to surrender claimed subject matter by submission of the above amendments and no prosecution history estoppel should apply.

It is noted that claimed subject matter may be patentably distinguished from the cited document for additional reasons; however, the foregoing is believed to be sufficient. Likewise, it is noted that the Assignee's failure to comment directly upon any of the positions asserted by the Examiner in the office action does not indicate agreement or acquiescence with those asserted positions.
